## Teacher's report for AGM 2022

I would like to thank the committee, who stepped up and brought CS Club Tauranga back to what is expected. Well done and thank you team – it was a pleasure to be a part of it.

Teaching over the past year has been very challenging. Covid pandemic restrictions kept changing what was allowed, who could meet and where. We had to deal with the problem of vaccination passes and other different restrictions. Furthermore, we had to cancel several sessions due to isolation or illness.

Despite all above-mentioned problems, we managed to have several very successful sessions in our new premises in the School's Out building. Here I would like to thank Linda for organising this. Unfortunately, we will be losing this space, due to the building being sold and the company closing down, but I feel optimistic, that we will find another place, where we could restart our schooling efforts.

We have offered private lessons and other styles of e-learning and I applaud all families who taken up that opportunity. The club also organised some fabulous events – St. Nicholas celebration or Easter just to name few and from the feedback, these were well received by all attendees.

The committee is doing an amazing job despite all the restrictions of the recent pandemic – well done ladies.

Thank you all for your support
