## Teacher's report for AGM 2023

I would like to thank the committee for their continuous support and for some fabulous events that were organised over the past year. Well done and thank you team – it was a pleasure to be a part of this again.

Teaching over the past year has continued to be rather challenging. Despite the Covid pandemic restrictions easing, we were still facing related issues such having to cancel a session or two, having to isolate and so on. But we persevered and I appreciate the support of all the people who attend our school sessions or other events.

We have settled in the new premises on MacDonald Street in Mount Maunganui. At present we run alternating session on Friday evening and Sunday morning – during nice weather Sunday sessions are often organised as outside trips i.e. to Maclaren's Park. Thank you to all our regular attendees, your commitment is appreciated!

We have offered private lessons and other styles of e-learning and I applaud all families who taken up that opportunity. The club also organised some fabulous events – St. Nicholas celebration or Easter just to name few and from the feedback, these were well received by all attendees. And this year we have also participated in the Multicultural Festival and organised several movie screenings. Upcoming is our annual Czech and Slovak Quiz.

The committee is doing an amazing job despite all the restrictions of the recent pandemic and their other personal commitments – well done ladies.

Thank you all for your support.
